

Forensic Accounting Associate of Applied Business

Forensic Accounting is a combination of accounting and investigation skills that provide students with both litigation support and investigative support skills. Forensic accountants testify in courtrooms in a clear and concise manner and present evidence for financial investigations. The investigations performed may include traditional audits or a court-required examination of records to provide evidence used to resolve a legal issue.

Forensic accountants may find employment with police agencies, banks and financial institutions, insurance companies, or within various governmental agencies. The forensic accountant will use their skills to gather, analyze, and present information that is clear and understandable. The analyst's skills include accounting and reporting of financial information, use of computer applications, and good communication.

Career Outlook

According to O*Net Online, there is a bright career outlook for fraud examiners, investigators, and analysis. Typical job duties include obtaining evidence, taking statements, producing reports, and testifying to findings regarding resolution of fraud allegations. Employees may coordinate fraud detection and prevention activities. Job titles include: special agent, investigator, certified fraud examiner, inspector general, and special investigation unit investigator.
