

NSCC College Credit Plus

Library Resources

Research for your college-level courses will most likely be more demanding than that of high school courses.

Get started on the right track at:

Library.NorthwestState.edu

While some of the research tools you'll access through the NSCC library may be the same, it's important to make sure that your sources are college-appropriate. OhioLINK is a group of more than a hundred college and university libraries located across Ohio that share resources.

Using the NSCC Library website and OhioLINK will help keep you on track.

No matter how you take your College Credit Plus class: online, at Northwest State, or at your high school, NSCC Library resources are available to you.
