

Films on Demand for Sakai

Find your video's LTI Link

Log in to Films on Demand and browse the catalog of videos available. When you have identified the video you wish to include, click on the Embed link below the video. Copy the LTI Link.

If you are logged in to your personal account, and do not see the LTI Link in the embed code area, click on User Options in the upper right corner and select User Preferences. Make sure your Embed Code option is set to either LTI Link or Show All. Click the save changes button to apply the setting.

Add the video to Sakai

Log in to Sakai and access your course. Navigate to the Lessons page you would like to include this video on. From the Add Content drop down menu, select Add External Tool. (Figure 1)

Under the tool selector, click on Films on Demand.

Enter a title and button text. This will be the link students see. Paste the LTI link in the Launch box. Click Save.

When you return to the External Tool Selector page, you will see your video listed under Select Item. Select that video, and click Use Selected Item to add it to your Lesson page. (Figure 2)
