

Earn a College Degree as a ParaProfessional

Teacher/classroom aides
Instructional/teaching assistants

ParaPro Cohort - Fall 2014

Designed specifically for those currently employed as a Paraprofessional, this exciting partnership between the University of Dayton and Northwest State Community College will begin fall semester 2014 on the Archbold campus of Northwest State.

- **Build** critical relationships
- **Increase** your professional marketability
- **Become** better prepared to meet the needs of all children

Paraprofessionals are critical members of a child's instructional team and work hard to support student learning in a variety of ways that require a broad knowledge base and diverse skillset. The NSCC paraprofessional education associate degree program provides the required courses through evening and online classes, offering the flexibility to continue your education and current employment.
