

Senate Bill 126
Collin's Law: Anti-Hazing Act
Northwest State Community College (NSCC)
2025-2 Report
Time Period: 2020 through 2025
Date of Report: December 22, 2025

NSCC prohibits hazing as defined in the Anti-Hazing Policy (3358: 14-5-23).

NSCC is committed to a safe and respectful campus environment that aligns with our institutional values. It is the College's belief that learning and working occur in environments where learners, employees, and visitors feel safe, secure, and welcome.

The College acknowledges that, as part of the higher education experience, learners and some employees participate in various extra- and co-curricular groups and organizations with different purposes and processes for affiliation. The College supports traditions within organizations that match the College's core values. Hazing is antithetical to our institutional mission and has no place at NSCC.

The College recognizes that a student organization or group may belong to a national oversight organization that also holds students accountable to expectations and standards (e.g., the national organization for a local fraternity chapter). NSCC is committed to partnering with these outside affiliates to address hazing allegations and will communicate with them as appropriate.

NSCC is pleased to report that **no hazing violations** have been reported for 2025 (as of 12/22/2025 at 4:25 PM), as well as none for the preceding 5-year period (2020 through 2024).
