

NSCC is committed to reducing the costs of textbooks and limiting the number of edition changes. The college is continuously researching open educational resources to help reduce costs.

## **ORDERING TEXTBOOKS & MATERIALS**

- Notify the NSCC bookstore of textbook and material order as soon as possible. This allows us to monitor registration and anticipate stock.
- You can contact Rockie in the NSCC Bookstore with your order and preferred method of delivery.
- All book orders can be billed to the high school. Bulk orders are preferred.

Rockie Durham | Bookstore Supervisor

419-267-1208 | [rdurham@northweststate.edu](mailto:rdurham@northweststate.edu)

- If you plan to order textbooks or materials from another vendor, NSCC provides textbook ISBN's on the NSCC Bookstore website under textbook lookup: [Books.Northweststate.edu/College](http://Books.Northweststate.edu/College). In this case, the Office of Admissions can provide student schedules and required textbooks upon request.

## **DELIVERY & PICKUP OPTIONS**

- Books and materials can be picked up by a high school representative or shipped directly to the school. If books and/or materials are shipped to the school, the high school is responsible for shipping and insurance costs.
- If the books and materials are billed directly to the high school, they will not be issued directly to a student without a completed book voucher.

## **HELPFUL REMINDERS**

- Some NSCC textbooks are custom made for the NSCC course and instructor. These books can only be ordered through NSCC or the publisher. The ISBN is important here.
- Although textbooks can be reused, access codes (where required) must be purchased as new each term.
- When buying used books, ISBN's must match exactly. Instructor editions are not acceptable to use and you must inquire if the access code is new and ready to use.
