

## Associate of Applied Science in Medical Assisting

Medical assistants are multi-skilled allied health professionals specifically trained to work in ambulatory settings, such as physicians' offices, clinics, and group practices, performing administrative and clinical procedures. This program will prepare competent entry-level medical assistants in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.

The following performance standards are necessary to safely and accurately carry out medical assisting duties:

- Critical thinking ability sufficient for clinical judgment
- Physical abilities sufficient to move from room to room and maneuver in small spaces
- Tactile ability sufficient for physical assessment
- Ability to prepare and administer medications
- Ability to transfer patients
- Ability to read medication labels and patient records
- Ability to take blood pressure and hear breath sounds through a stethoscope
- Communicate English clearly enough for most patients to understand and understand the verbal communication of English-speaking patients
- Clear written communication, and manual dexterity

### Requirements Prior to Enrollment in Externship:

- American Heart Association Healthcare Provider CPR & First Aid Certification
- BCI/FBI Background Check
- Health Insurance Coverage
- Medical/Immunization Form
- Signed Confidentiality Statement
