

Associate of Applied Science

The human services degree provides a foundation in social work, behavioral and social sciences which will prepare students for entry level generalist practice. The program is designed to integrate coursework with practical, hands-on experience through methods classes and a field practicum in community social service agencies. These courses are taught by professionally trained, licensed faculty. The program meets standards for Social Work Assistant certification by the Ohio Counselor, Social Work, Marriage & Family Therapist Board and the Ohio Chemical Dependency Professionals Board, CDCA Phase I (and Phase II with additional course work.)

Students must meet all program requirements, have daytime availability and meet agency age requirements for field placement. BCI & FBI criminal records checks are required. Students who have prior felony convictions and excessive civil infractions may be ineligible for practicum placement and employment.

Career Outlook

Social service, mental health, chemical dependency and developmental disability agencies are aware of the skill level and competence of graduates from the Human Services program with their SWA, CDCA certification and ability to work with supervision. Projected job growth for human service workers is expected to grow by 22% nationally and 15% in Ohio between the period of 2012-2022 (Bureau of Labor Statistics, Ohio Bureau of Labor Market Information.)
