

**INCLEMENT-WEATHER PROCEDURES
NORTHWEST STATE COMMUNITY COLLEGE**

Winter weather will soon be upon Northwest Ohio and inclement weather procedures often come to the surface. The college’s decision is based on the condition of our parking lot and the area businesses and industries closing. If you believe the conditions are such that you should not be traveling, you are responsible to make the decision for yourself. The college does not provide transportation to our students and thus does not follow the same factors to determine if we have school as the K – 12 school systems. If the college is in session during that time and you are uncomfortable driving, you are responsible to make up the missed material as per the arrangement with your instructors.

The college will initiate the QuickAlert system which will call/text you automatically when there is a delay or closing. In addition, the college will announce delays or closings over radio/television stations.

It is important to read and listen to the delays or closing announcements carefully. The college offers classes at many locations and only the location in the announcement will be closed (except for our synchronous sites which will close when the main campus closes). Also, the college may close only for the morning, the afternoon or the evening classes. Morning closings will be announced by 6:00 a.m. (classes starting between 7:30 and 11:45 a.m.), afternoon closing will be announced by 10:00 a.m. (for classes starting between 12:00 noon and 5:30 p.m.) and evening will be closed by 4:00 p.m. (for those classes starting after 5:45 p.m.). The quickest place for you to find any weather related updates will be the college website (www.northweststate.edu). The second quickest way is to watch or listen to the radio and television stations listed below. A message will be placed on the college switchboard but you may experience a longer than normal wait until your call is answered due to high call volume.

Northwest State Community College will contact the following stations:

Station Call Letters	Station	Station Call	Station Call
Letters	Station
