### Financial Aid Appeal Policy

Students have the right to appeal suspension of financial aid eligibility due to unsatisfactory academic progress. Federal regulations require a student to demonstrate an extenuating circumstance, which contributed towards the student's lack of academic performance (i.e. illness or death in the family), in order for an appeal to be considered. In those cases where these circumstances can be documented the student may have their eligibility reinstated based on a determined plan of study.

**It may take up to 15 working days before a decision is made. If a decision has not been made on your appeal by the time payment is due, you will need to make payment arrangements with the Business Office.**
